1612	Temescal Power Plant Road Repair	June 2012

- The dates above are currently planned dates, but are subject to change.
- Check out our website at www.mwdh2o.com and click on "Doing Business," then click on "Construction Contract Opportunities" for projects that are in the bidding stage.
- Check our bid advertisements in the Dodge Green Sheet and L.A. Daily Journal.
- Don't miss future opportunities; register your company with "PlanetBids" under "Vendor Registration" on Metropolitan's website under "Doing Business."

Metropolitan Water District of Southern California
Future Construction Contract Opportunities

Weymouth Effluent Conduit Slab Repair (Specifications No. M-2976)

Cost Range: \$80,000 - \$95,000

Location: La Verne, CA

Description: *Provide labor, equipment, and materials to repair a concrete ceiling slab of 10 feet wide by 31 ½ feet long by 1 foot thick.*

CRA Wide Area Network Microwave Upgrade (Specifications No. 1719)

Cost Range: \$700,000 - \$900,000

Location: Various Locations in the San Bernardino Desert Region, CA

Description: *Install new prefabricated structures at Rice Road and Copper Basin, new microwave antenna tower at Copper Basin, new microwave antennas and equipment at Iron Mountain, Rice Road, Vidal Junction, Copper Basin, and Black Peak Mountain (Parker, AZ).*

Lake Mathews Vehicle Exhaust Systems Installation (Specifications No. M-2973)

Cost Range: \$30,000 - \$45,000

Location: Riverside, CA

Description: *Provide installation plans, labor, equipment, and materials for the installation of five vehicle exhaust systems including accessories.*

Henry J. Mills Water Treatment Plant Ozone System Reliability Upgrades (Specifications No. 1605)

Cost Range: \$1,000,000 - \$1,300,000

Location: Riverside, CA

Description: *Construct ozone structures and facilities; modify utilities; make connections to existing facilities; perform testing and commissioning; and install Metropolitan-furnished equipment including liquid oxygen tank, ozone generator, and nitrogen system.*

Inland Feeder PC-1 Aboveground Storage Tank Installation (Specifications No. 1710)

Cost Range: \$80,000 - \$100,000

Location: Nuevo, CA

Description: *Furnish and install at 240-gallon aboveground diesel storage tank, concrete foundations, CMU wall enclosure, and metal canopy.*

Henry J. Mills Water Treatment Plant Hazardous Waste Storage Facility (Specifications No. 1712)

Cost Range: \$400,000 - \$500,000

Location: Riverside, CA

Description: *Perform earthwork; construct steel canopy, foundations, concrete ramps and slab, fencing and gates; modify existing ductbank; and install leak detection, safety shower, and eyewash.*

Upper Feeder Cathodic Protection (Specifications No. 1677)

Cost Range: \$400,000 - \$550,000

Location: Riverside, CA

Description: *Provide all labor, equipment, and materials for the installation of an impressed-current cathodic protection system on the Upper Feeder at five locations between Stations 238+00 and 616+75.*

Henry J. Mills Water Treatment Plant Sodium Hydroxide Tank Replacement (Specifications No. 1690)

Cost Range: \$700,000 - \$900,000

Location: Riverside, CA

Description: *Demolish four existing fiber reinforced plastic storage tanks, install three new carbon steel storage tanks, and make tie-ins to existing process piping and electrical systems.*

Metropolitan's Headquarters Data Center Uninterruptible Power System (UPS) Upgrade (Specifications No. 1718)

Cost Range: \$380,000 - \$450,000

Location: Los Angeles, CA

Description: *Upgrade the data center uninterruptible power system at Metropolitan's Headquarters building.*

OC-44 Facility and Road Repair (Specifications No. 1610)

Cost Range: \$60,000 - \$80,000

Location: Newport Beach, CA

Description: *Remove and dispose of existing degraded asphalt concrete and pave approximately 9,100 square feet of new asphalt concrete.*

Santiago Lateral Access Road Repair (Specifications No. 1611)

Cost Range: \$120,000 - \$160,000

Location: Yorba Linda, CA

Description: *Install approximately 544 feet of cast-in-place concrete on an unpaved access road.*

Temescal Power Plant Road Repair (Specifications No. 1612)

Cost Range: \$90,000 - \$120,000

Location: Corona, CA

Description: *Install approximately 944 feet of asphalt concrete on an unpaved access road.*
